# What is **Penetration** Testing and how can you start in the **Cyber Security** Field?

27.07.2023

# AGENDA

01

## Introduction

Introducing Ourselves to the New Era of Cyber Security & Collaboration

02

## Penetration Testing

- What is Penetration Testing
- the Importance of Cyber Security

03

## Start your Career

- How can you start
- What Resources can you use

04

## Questions

Feel free to ask any question please

**Eng. Ahmed Hassan**  
**Cyber Security Researcher & Ethical Hacker**

BUGLOUD.

Collaboration between **BUGLOUD** and Titanium Cyber Security Solutions (**TCSS**)

# Qualifications & professional certification

certification for advanced IT professionals

Certified EC-council Instructor  
Certified Ethical Hacker

OffensiveSecurity Certified Professional

# Penetration Testing Paths

# What is Pentesting?

A penetration test, also known as a pen test, is a simulated cyber attack against your computer system to check for exploitable vulnerabilities. In the context of web application security, penetration testing is commonly used to augment a web application firewall (WAF).

# How can you start in IT-Security?

- eJPT (eLearnSecurity Junior Penetration Tester)
- eWPT (eLearnSecurity Web Application Penetration Tester)
- eCPPT (eLearnSecurity Professional Penetration Tester)

# Pentesting

- Millions of Companies got **Hacked**
  - Companies need **Pentester**
    - Improve your Skills

YOU HAVE BEEN  
HACKED !

+Dunken K B

# Uber and GTA 6 Hacked & Leaked

## UK police arrest teenager suspected of Uber, GTA 6 hacks

Carly Page @carlypage\_ / 4:28 PM GMT+2 • September 26, 2022

Comment

## Grand Theft Auto 6 leak: who hacked Rockstar and what was stolen?

**A major data breach has given the world an early look at Grand Theft Auto 6. Why is this such bad news for the developer?**

Uber staff posted a comment. Sep 15th (5 mins ago)

UBER HAS BEEN HACKED (domain admin, aws admin, vsphere admin, gsuite SA) AND THIS HACKERONE ACCOUNT HAS BEEN ALSO

# Uber

How Uber was hacked in 2022

## How to become a penetration tester: (Practical) career guide

So you want to become a penetration tester but don't know where to start? This step-by-step guide is for you!

 mrb3n, Nov 09 2022

### CONTENTS

What does a penetration tester do on a daily basis?

How to become a penetration tester: 5 practical steps

Step 1: Know thyself (and your suitability for a penetration testing career)

Step 2: Level up your skills

Learning or becoming a penetration tester from scratch

How to get started in pentesting with IT experience

Step 3: Get a hacking or penetration testing certification

Step 4: Get your hands dirty in real-world environments

Step 5: Start applying

(Bonus) Step 6: Carve out a unique advantage

Average penetration tester salary (for beginners): How much do penetration testers make?

# Penetration Tester Tryhackme

## Learning Paths

Work your way through a structured learning path

### Red Teaming

Learn the skills needed to become a Red Team Operator

- Use diverse techniques for initial access
- Enumerate and persist on targets
- Evade security solutions
- Exploit Active Directory

Intermediate 48 hours

### Introduction to Cyber Security

Learn the core skills required to start a career in cyber security

- Learn about different careers in cyber
- Hack your first application
- Defend against a live cyber attack
- Explore security topics in the industry

Easy 24 hours

### Jr Penetration Tester

Learn the necessary skills to start a career as a penetration tester

- Pentesting methodologies and tactics
- Enumeration, exploitation and reporting
- Realistic hands-on hacking exercises
- Learn security tools used in the industry

Intermediate 64 hours

### Pre Security

Before hacking something, you first need to understand the basics

- Cyber security basics
- Networking basics and weaknesses
- The web and common attacks
- Learn to use the Linux operating system

Easy 40 hours

# Penetration Tester

**Web** Penetration Testing

**Network** Penetration Testing

**Active Directory** Pentesting

**Mobile** Pentesting

## FOUND VULNERABILITIES (BUG BOUNTY PROGRAMMS)

Siemens  
United Nations (UN)  
Sparkasse Bank (Austria)  
osd.myndr.nl  
forescout.com  
Government Technology Agency of Singapore (GovTech)  
MTN Group  
UK Ministry of Defense (Hacker Coin as Thank you received)  
UK Government  
U.S. Department of State 7x -> multiple Vulnerabilities submitted (Stored XSS, SQL Errors, SQL Injection etc.)  
NASA  
 (Bounty 200 Euro) (stored XSS and HTML Injection)  
INDIAN GOVERNMENT -> Stored Cross Site Scripting (XSS)  
PHILIPINES GOVERNMENT -> Reflected Cross Site Scripting (XSS)  
CERT-EU Computer Emergency Response Team (CERT-EU) for the EU institutions  
SCOTTISH GOVERNMENT -> multiple Vulnerabilities  
SINGAPORE GOVERNMENT NEW ZEALAND GOVERNMENT  
Huawei -> stored XSS and File Upload Restriction Bypass  
Drexel University University of Texas of Austin  
HP (Hewlett Packard) 2x Vulnerabilities

## FOUND VULNERABILITIES (BUG BOUNTY PROGRAMMS)

stkkkr.nl  
Drexel University  
Nokia  
Oracle  
Kuula  
Bosch  
Lenovo  
Philips

The screenshot shows a web browser window with the address bar displaying "oracle.com/securit". The page title is "On-Line Presence Security Contributors". The main text states: "Oracle acknowledges people who have contributed to our On-Line Presence Security program (see [FAQ](#)). People are acknowledged for contributions relating to Oracle's on-line presence if they provide information, observations or suggestions pertaining to security-related issues that result in significant modification to Oracle's on-line external-facing systems." Below this, it says: "For this quarter, Oracle recognizes the following for contributions to Oracle's On-Line Presence Security program:" followed by a list item: "• Ahmed Hassan".

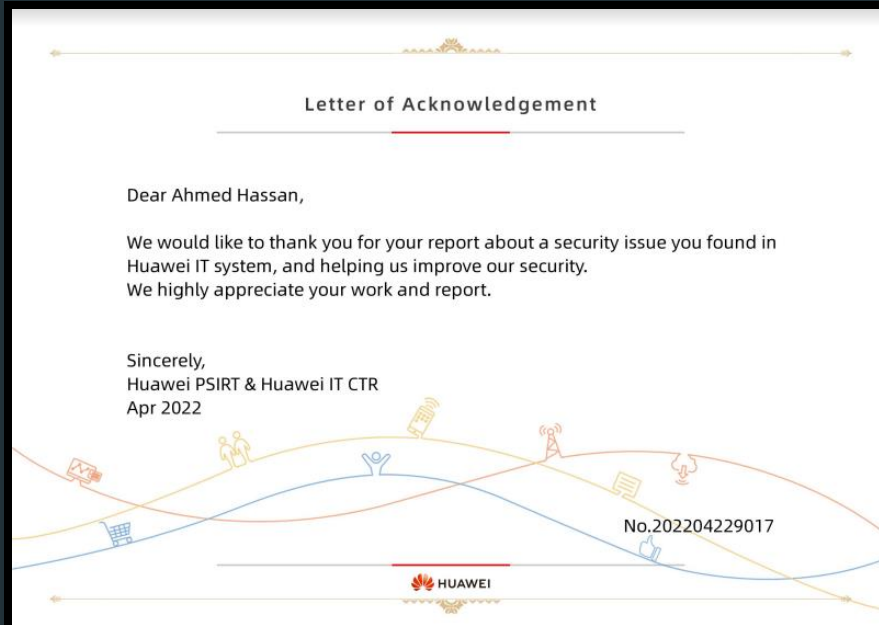

### On-Line Presence Security Contributors

Oracle acknowledges people who have contributed to our On-Line Presence Security program (see [FAQ](#)). People are acknowledged for contributions relating to Oracle's on-line presence if they provide information, observations or suggestions pertaining to security-related issues that result in significant modification to Oracle's on-line external-facing systems.

For this quarter, Oracle recognizes the following for contributions to Oracle's On-Line Presence Security program:

- Ahmed Hassan
